

Environmental Research and Services, an equal opportunity employer, seeks qualified applicants for the following job based out of our **Forest Grove, Oregon**, office.

Position title: BAT RESEARCH BIOLOGIST

Description: ABR is seeking a team-oriented, mid-level biologist to participate in ABR's Bat Research Program. This biologist would work closely with our lead bat ecologist in all aspects of field research including logistics, implementation of the field studies, and data analysis and reporting. Duties include conducting acoustic, visual, radar, and other surveys to study bats. Supervision of field technicians likely. Project locations throughout the U.S. Extended field stints probable.

ABR, Inc.—Environmental Research & Services is a long-established private scientific consulting firm headquartered in Fairbanks, AK, with branch offices in Anchorage, AK, Forest Grove, OR, and Greenfield, MA. ABR offers a wide range of specialty ecological services, including ornithological-radar surveys, bat acoustic monitoring, seabird and marine-mammal surveys, endangered-species consultations, and bird and bat migration studies. In addition, ABR recently has been providing wildlife consultation to the wind industry, other energy utilities, and communications companies that are erecting towers and powerlines in Alaska, Hawaii, the Continental US, and abroad.

Qualifications:

- Minimum of Master's degree in Biology, Wildlife Biology, or other Ecological theme;
- Two years experience, preferably with experience conducting acoustic surveys for bats. Experience conducting mist netting and telemetry surveys for bats a plus;
- Excellent field skills and oral and written skills;
- Strong data-analysis, statistical, and report-writing skills;
- Attention to detail

Physical requirements:

- Willingness to work an irregular schedule, including over night work is required
- Average agility and average to above-average dexterity is required
- Must be able to lift/move radar frequently, approximately 40lbs
- The ability to rotate neck from side to side for night-vision work is required
- A valid driver's license is required
- Work is performed in both an office setting and in the field
- Extensive computer work required
