

## **Village and City Governments**

### ***Historical, Archeological, and Cultural Sites***

The Alaska Office of History and Archeology, State Historical Preservation Office (SHPO) maintains an inventory, the *Alaska Heritage Resources Survey* (AHRs), of all reported historic and prehistoric sites in the state. A review of the AHRs indicates several sites in the Allakaket area that are within 1 mile of the airport. These sites include the historic village sites for Allakaket (BET-00102) and Alatna (BET-00101), and an old house depression and pit (BET-00110), none of these sites has had a determination of eligibility. The St. John's in the Wilderness Episcopal Mission (BET-00039), which has been determined to be eligible for inclusion on the National Register of Historic Places (NHR Date: May 18, 1995), was located in Allakaket near the Koyukuk River (this building apparently was being dismantled according to records provided by the Alaska Heritage Resources Survey office). None of the sites are within the project area for the airport.

### ***Coastal Zone Management***

According to the ADNR's Coastal Zone and Coastal District Boundaries Map ([www.alaskacoast.state.ak.us/GIS/boundary.htm](http://www.alaskacoast.state.ak.us/GIS/boundary.htm)), the project area is not located within the coastal zone for Alaska.

### ***State Land Use Plans and State Parks***

The village of Allakaket is not within a region of the state for which the Alaska Department of Natural Resources (ADNR) has prepared a land use plan. No state parks are located in the project area.

### ***Local Land Use Plans***

A local land use plan was not located for the Allakaket area.

### ***Area Landfill***

The City of Allakaket currently operates a permitted Class 3 (village) landfill (Permit No. 9931-BA008). No other landfills are in the project area.

### ***Additional Information***

In addition to identifying any concerns and/or issues your agency might have with the proposed project, the following information is requested:

1. The Alaska Heritage Resources Survey (AHRs) has been researched for the project area and any findings are identified above. If you know of any other confirmed or potential archaeological, historical, cultural, and/or religious sites that may be affected by the proposed project please provide that information.
2. Please identify any existing and/or proposed zoning requirements and/or land use controls in the project area. If permits are required please identify which ones.

3. Please identify any other local improvement projects under construction or proposed in the vicinity of the proposed project within the foreseeable future.
