THE ABR DIFFERENCE

100% Alaskan-owned and operated, we leverage our local experience to provide high-quality scientific services that we back up with over 45 years of integrity in practice.

ABOUT ABR

Established and headquartered in Fairbanks, Alaska, ABR is a leading environmental services firm specializing in environmental consulting, field research, and permitting support in Alaska. Each of our two locations (Fairbanks & Anchorage) provides a full spectrum of biological research and permitting support services. We have the right experience to work safely and efficiently anywhere in Alaska.
